Copeland
by nathan

"American Walnut has been my favourite wood since I started out in furniture design. It has a wonderfully interesting grain, rich colour that gives real depth and is a joy to work with. By using Walnut my aim was to create a collection that is warm, relaxed and allows the natural finesse of the wood to show through.

The inspiration for the Copeland design came in part from the English Arts and Crafts movement of the nineteenth century that focuses on honest craftsmanship. My intention wasn't to reproduce traditional furniture, but to use this philosophy to create a pure and enduring design that would epitomise Nathan Furniture's timeless quality"

Rob Scarlett - Designer

Copeland is crafted from a combination of modern materials, wood veneers and solid timbers. Attention to detail is paramount: only the best quality American Walnut veneers are used; drawers are dovetailed; and very soft textural oil provides a smooth yet durable finish.

The result is beautiful furniture of a high quality that will last for generations.
